### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claim 22 is rejected under 35 U.S.C. 103(a) as being unpatentable over Win in view of Shuert. The patent to Win teaches structure as claimed including a plurality of ribs (11) spaced parallel to each other, a plurality of cross beams (12) positioned transverse to each rib, a puncture resistant film (15) disposed over the ribs and cross beams, the only difference being that wherein a side of the pallet comprising the puncture resistant film is bowed out of the plane thereof in a direction opposite to a deflection of the pallet under load. However, the patent to Shuert (at 32) teaches the use of providing a bow in a structural support member to preload the structure to resist deflection to be old. It would have been obvious and well within the level of one having

Art Unit: 3637

ordinary skill in the art to modify the structure Win to include a bowed out support member to provide a preload to resist a load thereon, as taught and suggested by Shuert, since such structures are conventional alternative structures used in the same intended purpose, thereby providing structure as claimed.

Claims 23, 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Win. The patent to Win teaches structure substantially as claimed as discussed above including a non resistant film. The provision of decorative designs or lettering on a covering is well known and commercially used. It is noted that the film of Win and any lettering or decoration would provide a frictional resistance, thereby providing structure as claimed. With regard to applicant's remarks, it is repeated that the use of designs or lettering for advertisements is well known and commercially used and the use thereof provides a frictional resistance.

#### ***Allowable Subject Matter***

Claims 1-21 are allowable over the prior art of record.

#### ***Response to Arguments***

Applicant's arguments filed 11-08-04 have been fully considered but they are not persuasive.

#### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3637

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
